Key information summary.

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Devon Funds Management Limited (**Devon, we, us, our**) will invest your money and charge you a fee for our services. The returns you receive are dependent on the investment decisions of Devon and its investment manager and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

Devon offers one fund for you to invest in under this Product Disclosure Statement.*

Fund Name	Description	Risk Indicator ¹	Annual Fund Charges Based on Net Asset Value (NAV) ²
ARTESIAN GREEN AND SUSTAINABLE BOND FUND (NZD)	The strategy for the Fund is to invest in a diversified portfolio of Australian and international Green, Social and Sustainable Bonds that have been screened in accordance with Artesian's screening processes.		0.59%

*For further information about other funds within the scheme please refer to the Devon Product Disclosure Statement on the scheme register at www.disclose-register.companiesoffice.govt.nz.

¹ The Fund has only been operational as at the date of issue of this PDS. As such, market index returns have been used to determine the risk indicator for the Fund as the Fund has been in existence for less than 5 years. The risk indicator may therefore provide a less reliable indicator of potential future volatility of the Fund.

² A buy/sell spread (to fairly allocate the costs of buying and selling underlying assets) may be applicable on investment and redemption, or on switches. See Section 5 "What are the fees?" for more information on buy/sell spreads.

See Section 4 "What are the risks of investing?" for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek independent financial advice or work out your own risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Who manages the Artesian Green and Sustainable Bond Fund (NZD)?

The manager of the Fund is Devon Funds Management Limited. See Section 7, "Who is involved?" for more information.

What are the returns?

The return on your investment comes from:

- any increase or decrease in the Fund's unit price; and
- any distributions made to you from the Fund

The Fund generally distributes on a quarterly basis. See "How does this investment work?" on page 3 for more information.

How can you get your money out?

You may at any time request the redemption of some or all of your investment. Minimum redemption amounts may apply and you will need to complete a redemption

request in the prescribed format which is available from Devon on request. In accordance with the governing document which governs the Fund, we may defer or suspend redemptions in some circumstances. See Section 2 "How does this investment work?" for more information on how to get your money out.

Your investment in the Fund can be sold in accordance with relevant law but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

How will your investment be taxed?

The Fund is a registered portfolio investment entity (**PIE**). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (**PIR**). To determine your PIR, go to www.ird.govt.nz/toii/pir/workout. See Section 6 "What taxes will you pay?" for more information. See www.ird.govt.nz for more information.

Where can you find more key information?

Devon is required to publish quarterly updates for the Fund. The updates show the returns, and the total fees actually charged to investors, during the previous year. The latest fund updates are available at www.devonfunds.co.nz. We will also give you copies of those documents on request.

2 How does this investment work?

The PDS is an offer of units in the Artesian Green and Sustainable Bond Fund (NZD) (the Fund). The Fund invests directly into the Artesian Green and Sustainable Bond Fund (AUD) (Underlying Fund). The Fund is actively managed and invests in investment grade corporate bonds. These bonds are predominantly AUD bonds with a credit rating of BBB- or better by rating agencies (which are approved organisations who rate the financial strength of entities).

The Fund is constituted within a Managed Investment Scheme that is governed by the Devon Trust Deed dated 30 September 2016.

A managed investment scheme enables investors to pool their investments together to achieve benefits that may not be possible individually, including access to a wider range of assets and greater investment diversity. The Fund offers professional investment management, ease of administration, and utilises the benefit of the PIE tax regime.

The money you invest buys units in the Fund. The price of each unit you receive depends on the value of the Fund at the time you invest. We calculate the unit price by dividing the Net Asset Value of the Fund by the number of units the Fund has on issue. We also have the discretion to include trading costs in determining the unit price received. The unit price is calculated each business day and published on our website. The daily unit price of the Fund will change as the market value of the Fund's assets change. The return on your investment is reflected in any increase or decrease in the unit price.

Units do not give you legal ownership of the Fund's assets, however they do give you rights to the returns earned on those assets.

The number of units you have (your unitholding), when multiplied by the unit price, gives you the total value of your investment in the Fund (although the impact of tax can result in a change in the number of units you hold, up or down, as the unit price is calculated before tax).

The assets of the Fund are separate and are not available to meet the liabilities of any other fund in the Scheme.

Investing in the Fund may offer a number of benefits, including:

- The Fund will invest in labelled corporate bonds issued by global companies, such as Green, Social or Sustainable Bonds. The designation is determined by the issuer of the bond (Investment Process) (see page 4 for further information on the Investment Process).
- An investment grade fund with an emphasis on liquidity and credit quality.
- The manager of the Underlying Fund aims to provide optimal investment decisions by integrating

Continued...

ESG investment research in selecting which bonds to invest in. When considering a bond as a potential investment for the Fund, Artesian applies both positive and negative screens as part of its investment decision-making process (Screening) (see page 4 for further information on how Screening works).

- Large global, experienced team of fixed income professionals trading and analysing credit markets 24 hours a day.
- Returns in excess of the benchmark (see page 5 for the benchmark) are expected to be generated through a well-constructed and actively managed portfolio in the corporate bond market.

Investment Process

Artesian Corporate Bond Pty Ltd (Artesian, or Investment Manager) is the Investment Manager of this Fund and the manager of the Underlying Fund.

The Fund is only permitted to invest in labelled corporate Bonds such as Green, Social and Sustainable Bonds (Labelled Bonds). The Fund does not have explicit sustainability or non-financial objectives, rather, sustainability outcomes are a function of investing in the asset class of Labelled Bonds.

A Labelled Bond is designated as, for example, a Green, Social or Sustainable Bond, by the issuer of that bond. In making this designation, the issuer typically applies principles such as those issued by the International Capital Markets Association (ICMA) and typically seeks third party review or certification of the designation they have made. The ICMA principles are the primary principles considered by Artesian when assessing bonds as potential investments for the Fund. Whilst not expected to be a common occurrence, it is possible that the Fund may hold Labelled Bonds that have not been issued in accordance with the ICMA principles, or may have been issued in accordance with the ICMA principles but may not have been subject to a third party review or certification of their designation. Artesian also conducts its own due diligence on each bond issuer, the issuer's intended use of the investment made by Artesian and the level of ongoing reporting available.

Screening

When considering any Labelled Bond as a potential investment for the Fund, Artesian applies both positive and negative screens as part of its investment decision-making process. Screening restricts the investments available to those which are Labelled Bonds that comply with the positive and negative screens.

Artesian applies a negative screen (or exclusion) for issuers involved in the production of tobacco, alcohol, pornography, munitions, palm oil, gaming equipment and exploration and/or production of fossil fuels. For the avoidance of doubt, this negative screen does not extend to issuers that may be involved indirectly in these same products or services, for example in the selling or distribution of them. An example of this may be investment in the food and grocery sector where supermarkets may be involved in the distribution of alcohol and tobacco.

Artesian applies a positive screen to highlight companies that are undertaking activities that reflect appropriate responsible investment practices and impact reductions. For example, Artesian analyse the way companies approach gender issues and promote gender equity. When assessing companies by the way of positive screening, Artesian is evaluating the overall long-term sustainability of the business and their business practices. For example, companies with aspirational net-zero targets or market leading gender policies, and a track record of achieving these goals, would be viewed more positively than companies that were less developed in these areas.

Following Screening, Artesian then undertakes detailed financial analysis to form a view on whether an individual bond would be an appropriate investment for the Underlying Fund.

Monitoring

Once Artesian has made the decision to invest in an individual bond, that bond is subject to ongoing monitoring in respect of both its status as a Labelled Bond and its adherence to the Screening applied before that investment was made. This monitoring occurs on an ongoing basis, typically when the bond issuer issues their annual impact report which outlines the impact achieved by the proceeds of the invested bond.

If this monitoring programme was to identify a possible exception (for example, the loss of a bond's status as a Green Bond), Artesian will determine the most appropriate response on a case-by-case basis. Possible responses include working with the issuer to resolve the breach identified, or if this can't be achieved, making a decision to sell the holding. If a bond loses its labelled status, it would be disposed of within 30 days in normal market conditions. In the event of a breach being identified, Devon will communicate with clients on both the nature of the breach and the steps taken to address the breach.

For further information on the non-financial features of this Fund please see pages 3 – 5 of the SIPO on the scheme register at www.disclose-register.companiesoffice.govt.nz.

Distributions

The Fund generally distributes on a quarterly basis for the distribution periods ending January, April, July and October. We determine the amount available for distribution (if any).

Payments are made within three business days of the distribution ex-date and are generally paid on the 15th (or the next business day) of the following month. For tax purposes distributions are considered non-taxable income.

You can elect to have your distribution paid into your nominated bank account or you can reinvest by purchasing further units in the Fund.

You can elect which of these options you prefer in your initial application, or by writing to us.

We can alter our distribution policy in consultation with our Supervisor and after advising you of any change.

Making investments

You can make lump sum or regular investments into the Fund. Investments can be made by completing the application form at the back of this PDS. A NZ\$10,000 minimum applies for the initial contribution and NZ\$100 minimum per quarter for subsequent regular payments. For information on how to invest in the Fund, see Section 10 “How to apply”.

Withdrawing your investments

If you wish to make a redemption you must complete a redemption request in the prescribed format which is available from Devon on request. Once submitted, your redemption request is not able to be withdrawn. Subject to the governing document which governs the Fund, we have the ability, in certain circumstances, to suspend or defer redemptions. The consequence of suspension or deferral is that withdrawal requests will not be processed within the ordinary timeframes outlined below. In the event that this should ever occur, you can still submit a redemption request and these will be processed in the order in which they are received, once the suspension or deferral has been lifted.

You may withdraw amounts of \$2,000 or more. If your withdrawal would result in your investment

falling below \$2,000, we may request the Supervisor to withdraw the balance of your holding and repay the proceeds back to you.

Withdrawal requests will be processed each business day in Auckland. The withdrawal value of the units will be paid to you, after adjustment for any tax payable (if applicable), within 30 business days from the date your withdrawal request is received. No person guarantees or promises the repayment of, or returns on, your investment in the Fund.

How to switch between Funds

You can request to switch part or all of your investment from the Fund to another fund within the Scheme. Please refer to the Devon Funds Product Disclosure Statement. Completed switch requests will be made on the next available unit price. Switches will be treated as a withdrawal request from the Fund and a subsequent application into another fund. A switching form is available from Devon on request. Switches will be treated as a withdrawal request from the Fund and a subsequent application into another fund. A switching form is available from Devon on request.

4 What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

The risk indicator for the Fund can be seen in Section 3 “Description of your investment option.” The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund’s assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/calculators/investment-planner.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance.

The Fund has not been operational for the required five years. We have therefore determined the risk indicator using market index returns. The risk indicator is based on the returns data for the market index returns for the five-year period to 31 March 2023. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest Fund Update for the Fund.

General investment risks

Some of the things that may cause the Fund’s value to move up and down, which affect the risk indicator, are:

Market risk: Investment returns are influenced by the performance of the market as a whole. Economic, technological, political, legal factors, pandemic outbreaks and market sentiment can change. These changes may affect the value of investment markets, the Fund’s investments and the value of the units.

Investment specific risk: The price of a specific investment of the Fund may be affected by market risk (above) but also by factors which are specific to that investment; for example, a circumstance or change impacting a particular company, sector, region or type of product in which the Fund has invested.

Liquidity risk: Under abnormal or difficult market conditions, some normally liquid assets may become illiquid, restricting the Investment Manager’s ability to sell them and this in turn may mean that withdrawal payments cannot be made to investors without a potentially significant delay.

Investment manager risk: Like other investment managers, the Investment Manager’s approach directly impacts the value of the Fund’s performance. There is no guarantee the Fund will achieve its performance objective or produce results that are positive. Changes in key personnel within the Investment Manager may also impact the Fund’s future return.

Fund risk: The Fund could terminate and fees and costs payable by the Fund could change. There is also a risk that investing in the Fund may give different results than direct investing because of income or capital gains accrued in the Fund and the consequences of investments and withdrawals by other investors.

Currency risk: The Fund invests in securities denominated in currencies other than New Zealand dollars. If these currencies change in value relative to the New Zealand dollar, the value of the investment can change. The Manager will typically hedge currency risk to New Zealand dollars.

Credit risk: Credit risk is the risk that an issuer of a security fails to pay their principal or interest obligations when they are due. Credit limits, which are set through risk management processes, provide a framework for the amount of credit risk that the Fund can take, and this risk can be supplemented or hedged through the use of tools such as credit derivative products.

Counterparty risk: There is a risk that a counterparty (for example, under a derivative or hedging instrument) may breach its obligations. This could include, but is not limited to, failing to make settlement payments or returning margin payments.

Continued...

Interest rate risk: The value of securities can be affected by interest rate movement. In instances where interest rates rise, the face value of certain fixed rate securities may decline. Equally, in circumstances where interest rates decline, the yield of certain floating rate securities will drop to reflect the floating rate nature of the yield. Also, interest rate expectations have the ability to impact the value of securities.

Derivative risk: The Investment Manager may use derivatives for risk management purposes. These may include interest rate futures, forward contracts, cross currency swaps and credit default swaps. These may not move in line with the underlying assets or may be difficult to trade. Derivatives will not be used within the Fund for speculative or gearing purposes.

Other specific risks

Integrated financial product risk: An integrated financial product is one that incorporates non-financial factors alongside financial factors when making investment decisions. Artesian seek to determine and assess for material ESG risks and opportunities. This analysis and assessment is incorporated into Artesian's investment decision-making process via reports, presentations and engagement with bond issuers.

Artesian considers non-financial factors through negative and positive screening to establish the range of investments that are available for investment in the Underlying Fund as further explained in the SIPO. These non-financial considerations may limit the number of investment opportunities available, and as a result, at times, the Fund may produce more modest gains than funds which do not take non-financial factors into account when making investment decisions.

Further information on risks, including inflation risk, default risk, volatility risk, insolvency risk, changes to law and other statutory restrictions, leverage risk and PIE status risk, is contained in the Other Material Information document (OMI), which can be found on the offer register at www.disclose-register.companiesoffice.govt.nz.

5 What are the fees?

You will be charged fees for investing in the Fund. Fees are deducted from your investment and will reduce your returns. The fees you pay will be charged in two ways:

- regular charges (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term; and
- one-off fees – for example abnormal legal or regulatory fees.

Total Annual Fund Charges

Total fund charges, as a percentage of net asset value (excluding GST)

Management fee	Estimated Other Administration Charges and Expenses	Estimated Total Annual Fund Charges
0.34%	0.25%	0.59%

The charges outlined above cover:

Management fees: We charge an annual management fee to the Fund as set out above plus GST. This fee covers the investment management of the Fund and is accrued for daily in the Fund's unit price.

Administration charges: These charges cover the general administration of the Fund including the Supervisor, normal legal, custody, registry, fund accounting, unit pricing and audit fees and are accrued for daily in the Fund's unit price as set out above plus GST. Brokerage and other transaction costs are paid directly by the Fund. Under the terms of the governing document which governs the Fund, other costs and expenses, such as abnormal or one-off costs, brokerage, transaction costs and all taxes may also be charged to the Fund.

There are no performance fees charged by us in relation to the Fund.

Various individual action fees

A buy/sell spread (to fairly allocate the costs of buying and selling underlying assets) may be applicable on investment and redemption, or on switches, and will only ever apply as an individual action fee. These are amounts determined at our discretion on account of estimated costs which would be incurred if investments of the Fund were acquired or realised to make an investment or pay a redemption. For more information please refer to Devon's OMI on Disclose at www.business.govt.nz/disclose, and Devon's website at www.devonfunds.co.nz/buysell-spreads. A buy/sell spread may also be applied by the underlying unit trust into which the Fund invests.

Example of how fees apply to an investor

Mel invests \$10,000 in the Artesian Green and Sustainable Bond Fund (NZD). She is not charged an establishment fee or contribution fee. This brings the starting value of her investment to \$10,000.

She is charged management and administration fees, which work out to about \$59 (0.59% of \$10,000) over the year. These fees might be more or less if her account balance has increased or decreased over the year.

Estimated total fees for the first year: \$59

This example applies only to the Artesian Green and Sustainable Bond Fund (NZD). If you are considering investing in other funds or investment options in the Scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

The existing fees may be changed or new fees imposed in accordance with the Trust Deed and applicable law upon giving you 90 days' written notice. Devon must publish a quarterly Fund Update for the Fund showing the fees actually charged during the most recent year. Fund Updates, including past fund updates, are available at www.devonfunds.co.nz.

What taxes will you pay?

The Fund is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to www.ird.govt.nz/toii/pir/workout. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department (IR). It is your responsibility to tell Devon your PIR when you invest or if your PIR changes. If you do not tell Devon, a default rate may be applied. If the rate applied to your PIE income is lower than your correct PIR, you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR, any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you by IR.

Further information about taxes you will pay can be found in Devon Funds Other Material Information document on our website www.devonfunds.co.nz.
